Duluth Journal of Undergraduate Biology

About DJUB

The Duluth Journal of Undergraduate Biology (DJUB) is an online peer-reviewed journal.

The mission of this journal is to publish innovative, original work that advances the field of biology. To achieve this aim, the journal publishes articles written and edited by University of Minnesota Duluth (UMD) undergraduate students and recent undergraduate alumni.

The journal publishes various types of original articles, including but not limited to:

- articles that contain original research that advances the field,
- review articles that analyze existing research and include innovative ideas for future directions, and
- primers that serve as guides for a recent primary research article.

This publication is sponsored through a joint collaboration of the Department of Biology and the Department of Writing Studies at University of Minnesota Duluth.
