THE UMD STATESMAN
April 28

Prominent Educators Featured At Annual Leadership Seminar

Art Festival Slated

UMD's Fine Arts Festival, April 6 through May 6, will feature art exhibitions, concerts, drama, special films and a series of lectures on "The Tempo of the 20's.

Tweed Gallery will present two exhibitions of paintings. The works of internationally known Dutch artist Gilbert Munger will be shown from April 16 through April 30. Many of the Munger paintings were obtained on loan from Duluth homes and part from recent acquisitions by the Tweed Collection. The works of Jean Chardot of Honolulu, Hawaii, who will conduct the Workshop in Advanced Painting at UMD during the second summer session, will be exhibited starting May 1.

Musical events include a concert by UMD's Chamber Choir on Tuesday, April 12, Kirby Student Center; an Orchestra Concerto on April 20 at Kirby student center and a State land concert with Doc Evans and his band on April 28 in the Physical Education Building.

The Mad Woman of Chaillot will be presented by the University Theatre April 27-30 in Main auditorium under the direction of Fred Metter.

Five films by the internationally known industrial designer Charles Eames will be shown; April 21 at Lecture Hall, Humanities building. On May 6 four color films of Sweden will be shown in the Science auditorium.

The Fine Arts Festival will officially open at 8:15 p.m. April 6 when Frederick Hoffman of the University of Wisconsin speaks on "The Tempo of the 20's" in Kirby Ballroom. The five succeeding Wednesday evening lectures will be given by Arthur Mizener, Cornell University, "Spokesman of a Generation," Scott Fitzgerald (April 13); Malcolm Cowley, editor and literary critic, will speak on "The 1920's - Thirty Years Later" (April 20). Mark Schorer, University of California, "Midwest Protest: Sinclair Lewis" (April 27); and Allen Tate, University of Minnesota, "The Fugitives" (May 4).

Akre Receives Grant

Roger D. Akre, a UMD Senior, has been given a three-year National Defense Graduate Fellowship for study in entomology at Kansas State University to begin this fall. The grant was given by the Office of Education. Akre is the son of Mrs. O. O. Randall of Grand Rapids, Minn. He will graduate with a B.S. degree in June with a major in biology.

Akre, one of 190 in the nation to receive such a fellowship for further study in biology, will be given a stipend of $2,000 for the first academic year of study, $2,500 for the second year, and $2,400 for the third, plus an additional amount of $600 for each year for each dependent. Akre is married and has one child.

Akre became interested in biological research at UMD after he began assisting Dr. Hual-Chang Chiang, associate professor of biology, who is internationally known for his work in insect behavior. Last year, Akre developed an independent research project on the biology of the grant with funds awarded by the National Science Foundation. The U. S. Office of Education program covers fellowships in all fields of study. To qualify, a student must be a senior or a graduate student for not more than six months. The student must show an interest in college teaching. Because of the fellowship award, it is expected Akre will be able to do research and also complete the requirements for a doctorate.

Dr. Ous Turbeville and Dr. B. James Borreson, two nationally prominent educators, will be featured at UMD's third annual student leadership seminar, using the case study method which will be held next Friday through Sunday April 8-10, in Kirby Student Center.

Dr. Turbeville, President of Northland College at Ashland, Wisconsin, former head of UMD's sociology department, will speak at a banquet at 6 p.m. Saturday, April 8. He will discuss the topic "On Being Good Followers."

Dr. Borreson will lead the case study discussions. Borreson is the executive dean of student life at the University of Maryland. He formerly was assistant dean of the Harvard Business School which made famous the case method of presenting real stimulation for study, discussion, and solution.

Dr. James Borreson, of the University of Maryland, will lead case study discussions at the Student Leadership Seminar, April 8-10. Dr. Borreson will use the case method of presenting cases stimulation for study, discussion, and solution.

was the first of its kind in the nation using the case study to realize one of the seminar's major objectives, which is to develop potential leadership. More than 10 students from UMD and area colleges in Minnesota and Wisconsin are expected to attend this year.

Discussion groups assignments will be made at 7:45 p.m. on Friday, April 8, followed by an orientation session, discussion of the first case and a social hour. Case studies will resume at 9:00 a.m. on Saturday with the day's activity climaxing by the evening banquet. The final case study will begin at 1:30 p.m. Sunday, April 10, with an evaluation and closing session at 3:30 p.m.

The seminar is sponsored by the UMD Student Association with the cooperation of the Kirby Student Center program committee and the Office of Student Personnel Services. Seminar staff members include Mary P. Oam, UMD coordinator of counseling and faculty advising; Biswin O. Sigelkow, coordinator of student activities and Kirby Center; and Armas W. Tamminen, head of psychology at UMD.

Blackwell to Speak

On Game Theory

David Blackwell, professor of statistics at the University of California, one of America's most distinguished mathematicians, will give two public lectures on the UMD campus April 5 and 6.

Blackwell will speak on "Game Theory" at 8 p.m. April 5 at UMD's Physics auditorium to Sigma Xi fraternity members and all other interested persons. He will also speak at a general convocation at 11:30 a.m. April 6, at the Science Auditorium, where he will discuss "The Setting of Arguments."

Blackwell is one of a half dozen lecturers of national status speaking on smaller campuses in order to acquaint faculty members with the newest developments in science and mathematics and to inspire college and high school students toward this area of study.

Help Wanted

The Statesman needs you!! If you are interested in journalism, leave your name in the Statesman office at Kirby Student Center Desk or in the News Service and a member of the Statesman staff will contact you. Experience is not necessary, but for those with experience four paying positions are open: News Editor, Feature Editor, Business Manager, and Ad Manager.

Ralph E. Lian, Managing Editor
USNSA Favors Academic Freedom

It is the purpose of the University to provide and encourage the sum total of human knowledge, to seek after the Causes and to cultivate a spirit of continuing critical inquiry. The University must represent such a variety of scholars, teachers and learners, teachers and students, which serves its immediate and more broadly serves the whole of mankind.

Inherent in the nature of the university is the concept of Academic Freedom. Freedom is not thought of as privilege, not as concession, that any authority inside or outside the institution may properly grant or deny, qualify or regulate according to its interests or its desire. Consistent with the concept of Academic Freedom is the necessity for individuals to move freely in a world of ideas. In accordance with the educational institution's obligation to stimulate the pursuit after truth, it is our responsibility to serve as an open forum for differing views and opinions, no matter how unpopular or divergent, and to guarantee to all members of the academic community the right to hear all sides of the given issue. Only through the critical examination of all alternatives can the accumulated knowledge of society be advanced.

USNSA firmly believes in the principles of Academic Freedom as a prerequisite for the preservation of the University. It believes that it is the right and responsibility of the student to participate fully in independent inquiry and criticism. It has the right to question, criticize, and dissent from ideas with which he disagrees, and to hold and advocate his personal beliefs, free from all pressure which tend to restrict the student and his pursuit of knowledge.

USNSA believes in the freedom of the educator to investigate, to draw conclusions and to impart its knowledge, and to hold and promote his beliefs in an atmosphere of freedom. This personal philosophy or opinion of members of the administration or other authorities should not be criteria in the selection or promotion of education. It is the duty of the university administration to protect the faculty against the clamors of demands by those who do not appreciate the goals of scholarships. The university itself sustains and reinforces in each member of the academic society the standards requisite for the fulfillment of its primary function. It can do so, however, only if it is free to pursue that function and thus render the humanism its indispensable requirement is Academic Freedom.

To The Editor

I'd like to make a complaint about a parking ticket I received because someone else made the mistake. I parked in approximately the middle of a row which was naturally directed by the arrangement of the lot. After I left my car, a student who did not have his keys and his student identification in the car would have been severely distraught as to whether his school car would still be where he left it.

Sincerely,
A disgruntled parker

May 7 Set As Date For M.C.A.T.

The Medical College Admission Test, for candidates for admission to medical schools in the United States in the fall of 1961, will be given May 7 at UMD, May 8, Foy, senior student personnel worker and instructor, announced today.

While the test will be given at UMD, this is not an indication that the Minneapolis campus. It will be given on that date at UMD.

The tests, prepared by the Educational Testing Service of New Jersey N. J., are to be taken by applicants by the University medical school as well as by most every medical college throughout the country. The Association of American Medical Colleges recommends that candidates for admission in the fall of 1961 take the May test.

Applications taking the test at UMD will report at 8 a.m. on Saturday, May 7, to Room 150 Kirby Student Center. Deadline for applications is April 22.

The M.C.A.T. consists of tests of general scholarship that is designed to get an understanding of modern society and an achievement test in science, which is more a test than a review of science subjects is necessary, according to the Educational Testing Service Bulletin of information. All questions will be of the objective type. Information on the October 29 test may be obtained from Psychological Corporation, 204 East 42d Street, New York 17, New York.

Columbus discovers the Winston Hemisphere

"Flavor, Ho!" The Admiral Shouted As He Sighted FILTER-BLEND

From the Captain's Log...

One Day Out. Weighed anchor and set sail in search of a filter cigarette that really tastes like a cigarette. Crew thinks this is wild.

One Week Out. Have sighted many filter cigarettes and smoked some. Crew still thinks the world is flat.

One Month Out. Discovered a new world of smoking pleasure.

Winston! It is the only cigarette with a modern filter plus Filter-Bleed - rich, golden tobaccos not only specially selected, but also specially processed for filter smoking. Crew now thinks this is a pressure cruiser.

One Year Out. Crew has mutinied. Refuses to go back to the Old World (non-Winston Hemisphere). I agree. Therefore I am founding a colony called Filter-Bleed. Colony's motto will be:

Winston tastes good...like a cigarette should!}

Exam To Be Given

All students who plan to apply for entrance into a graduate school should check whether or not the Graduate Record Examination is a requirement for admission. You will find the information pertinent to you in the Information Bulletin. Students who are not sure about their requirements are urged to check with their advisor.

UMD football coach Jim Malosky expects the "largest turnout ever," for the pending 1960 spring practice grid session. Malosky felt that, "about forty hopefuls will come out for the three-week drills, which should commence about May 3. The spring session will be culminated by the second annual VARSITY ALUMNI GAME on Saturday, May 21.

Malosky foresees no immediate lineup or position changes. UMD, but warned that, "Spring practice will pretty much decide who will be playing football next fall."

WEATHER AND WEAKNESSES

The opening date will be some time later than a year ago due to lingering spring weather conditions. Malosky believes that by May, the campus football field should be in playable shape. However, from this corner, it appears that another stand-and-watch version will not be the most desirable circumstances for such an undertaking. At times like these, the need for a permanent field structure becomes more and more apparent.

Malosky sees only two probable weak spots for his squad—depth in the line, and the lack of a dependable kickoff and extra-point kicker.

Anticipating the Alumni contest, Malosky admitted that in 1959, "The Alumni out-hustled, outplayed, outthought, and outcoached us." But the won-lost element was in favor of the varsity, as the regulars came out on top in the final chapter of the tilt, 15-14.

NEWCOMERS TO BOLSTER LINEUP

UMD fans will get a chance to see last year's regulars in action plus an opportunity to view the performances of some highly regarded newcomers. Malosky particularly mentioned halfback John Nachtsheim, and transfer tackle Dominic Mannuccio.

Nachtsheim, the former University of Colorado speedster from Minneapolis-Rubberdale, is a 185-pounder who will operate from the right halfback spot, occupied last fall by unquestionably Rusty Glischrist, Edina's Joe Schoffman, a freshman, and Bruce Johnson, also a freshman, from Cambridge.

Malosky and Pat DeFullback John Dravenovich, a 230-pound transfer from the University of Minnesota who will back up probable starters Ron Kostelis and Dave Hampton. Kostelis, easily one of the best tackles in the conference, weighs in at 230 pounds. Other tackles mentioned by Malosky were Ed Olson from Aitkin, and freshman Dan Johnson, from Cotton.

THE REST OF THE LINE will appear the same with big 8th grader Rusty Bahn and Pat Devany, and ends Bill Bort and Dave Lindstrom. Delany, from Edina-Morningside, was voted the team's outstanding freshman performer during the 1959 season, while Bahn, a junior, suffered a broken leg midway through last fall's campaign.

BACKFIELD LOADED

The Bulldog backfield at this point appears to be well-stocked. Starting quarterback will be the sharp-passing Skip Fontaine. Proctor, who will be supported by Gerry Richardson of Cromby, Iron and Ed Lundstrom of Two Harbors. Halfbacks Al Hansen and Gary Raaseh also have possibilities at the backfield slot.

Fullback John Drazenovich, a senior with a year's remaining eligibility, will be backed up by Halfback Johnson. Malosky said that, "Johnson will be given a full trial at full."

Malosky has several able men to choose from for halfbacks, namely All-MIAC junior Dick Pesonen, Rusty Glischrist, John Nachtsheim, Joe Schoffman, and Gary Raaseh. Back in school, but a question mark with football, is powerful Bob Vixena, a 260-pound fullback regular during the 1957 season.

UMD TAKES THIRD IN MIAC TOUREN

Eligibility Rules

Released by MIAC

Dr. Emmerit Davidson, faculty representative of the Minnesota Intercollegiate Athletic Association, has informed the STATEMAN of the latest regulations of this conference regarding player eligibility.

According to the By-Laws adopted on May 24, 1958, by the MIAC, each student, beginning with those entering college in the fall of 1958, competing in any intercollegiate contest during his second or third semesters, or second, third, fourth, or fifth quarters must have obtained in his last semester or quarter of attendance in his college a passing grade in at least twelve credit hours of collegiate work, six of which must be C grade or better; during his fourth or fifth semesters or sixth and seventh quarters must have obtained a C grade or better in at least nine of the twelve credit-hours passed in the preceding semester or quarter, and during his sixth, seventh, and eighth semesters or quarter, ninth, tenth, eleventh, and twelfth quarters must have obtained a C average of his credit load during the preceding semester or quarter.
